

2023-2024 Graduate Catalog

Welcome to our Graduate online catalog, the College's primary, comprehensive single source of departmental and college-wide information related to academic programs. Courses, degree programs, and policies that govern progress toward completion of a degree are described in this catalog. Students are responsible for knowing and understanding the contents of the catalog year they are following.

The catalog provides a broad range of course information in a consistent online format and is searchable and user-friendly. If you need to print the catalog, you can download the PDF Catalog (http://catalog.manhattan.edu/graduate/2023-2024_Manhattan_College_Graduate_Catalog.pdf) version.

While every effort is made to ensure that the course information, applicable policies, and other materials presented in the *Catalog* are accurate and correct, the College reserves the right to make changes as circumstances require.
