

# BS/MBA Professional Accounting

---

Marc Waldman, Ph.D., Director, MBA Programs

The B.S./M.B.A. Professional Accounting program offers students an option to complete a CPA licensure qualifying curriculum and is structured to meet the requirement in accordance with the regulations of the State of New York. The successful completion of the five-year program leads to two degrees: a B.S. and MBA in Professional Accounting. The program consists of a total of 153 hours in undergraduate and graduate credits, planned over a five-year period, including coursework during ten semesters and one summer session.

The program is designed to increase students' awareness of the multifunctional aspects of business and enhance their ability to integrate business knowledge in decision making.

The initial admission into the O'Malley School of Business follows the institution's admissions processes. Students are encouraged to apply to the 5th-year MBA program during the first semester of their senior year.

O'Malley School of Business seniors who have earned an overall GPA of at least 3.0 can, with permission of the MBA Program Director and their academic adviser, take select MBA courses.

Undergraduate students enrolling in MBA courses (which include ACCG 600-level courses) should be aware of the following:

1) A maximum of **two** MBA courses (6 credits) can be used to satisfy undergraduate degree requirements.

MBA courses are typically applied toward a student's free or business elective requirements.

2) A student wishing to enroll in additional MBA courses (beyond the two allowed in the senior year) will be charged for the course at the graduate per-credit tuition rate. The graduate tuition rates are listed on the following web page:

- MBA 710 (Professional Ethics) replaces MGMT 430
- ACCT 410 replaces the ACCT Elective/Internship
- Any MBA Core course replaces the Business Elective
