

Pre-Health Information

Dr. Bruce Liby
Pre-Health Professions Advisor

The Minor in Pre-Health is designed to provide students with the necessary foundation for a career in the Health Professions. It is open to all undergraduate students in good academic standing. This designation will be on their official academic record as fulfillment of the requirements of the concentration. Students from any major and any School of the College may enter the Minor.

To matriculate in the Minor in Pre-Health Studies, a student must earn an overall average GPA of 3.0 in all courses with no more than two grades lower than a 3.0 in any of the Minor courses. Students must have completed or be currently enrolled in Science 105, Introduction to Pre-Health Studies. Any student who, at any time, fails to meet all requirements concurrently will be disenrolled from the Minor. To be in good standing in the Minor, students must take at least six credits in the Minor per academic year (including summer). Students who fail to do so will be disenrolled from the Minor but may reapply when this requirement is met. All pre-requisites and co-requisites of the below courses must be taken.

As the prerequisites for the various programs in the Health Professions can vary substantially, students may request, in advance, to substitute specific courses for some of the above requirements. Substitutions for any of the above courses will be considered on a case-by-case basis and must be approved in advance by the Pre-Health Advisor.

Individual requirements may be waived by the Pre-Health Advisor in special cases.

Students who have been dismissed from the Minor may re-apply. To be successful, such students must demonstrate a greatly improved academic performance or profound extenuating circumstances.

Minor in Pre-Health Studies Requirements

All students enrolled in the Minor in Pre-Health Studies must take the following courses:

SCI 105	Introduction to Pre-Health Studies	1
BIOL 111	General Biology I	4
BIOL 113		0
BIOL 112	General Biology II	4
BIOL 114		0
BIOL 217	Genetics	4
BIOL 218		0
CHEM 101	General Chemistry I	3
CHEM 103	General Chemistry Laboratory I	1
CHEM 102	General Chemistry II	3
CHEM 104	General Chemistry Laboratory II	1
CHEM 319	Organic Chemistry I	3
CHEM 323	Organic Chemistry Laboratory I	2

CHEM 320	Organic Chemistry II	3
CHEM 324	Organic Chemistry Laboratory II	2
CHEM 433 or BIOL 319	Biochemistry I Cellular BioChemistry/Physiology	3
PHYS 107 or PHYS 101	Introduction to Physics I Physics I	4
PHYS 197 or PHYS 191	Physics I Lab	0
PHYS 108 or PHYS 102	Introduction to Physics II Physics II	4
PHYS 198 or PHYS 192	Physics II Lab	0
MATH 155 or MATH 185	Calculus for the Life Sciences I Calculus I	3
MATH 156 or MATH 186	Calculus for the Life Sciences II Calculus II	3
Total Credits		48

Students pursuing a career in Physical Therapy, Physician Assistant, and other selected fields may substitute Anatomy and Physiology for Organic Chemistry, with the approval of the Pre-Health Advisor. The substitutions would be as follows:

1. Anatomy and Physiology I (**BIOL 207. Anatomy and Physiology I; BIOL 209. Anatomy And Physiology Lab I**) may replace Organic Chemistry I (**CHEM 319. Organic Chemistry I; CHEM 323. Organic Chemistry Laboratory I**).
2. Anatomy and Physiology II (**BIOL 208. Anatomy and Physiology II; BIOL 210. Anatomy And Physiology Lab II**) may replace Organic Chemistry II (**CHEM 320. Organic Chemistry II; CHEM 324. Organic Chemistry Laboratory II**).

The above substitutions are not appropriate for Post-Graduate study in the Medicine, Dentistry, Podiatry, Optometry, and Veterinary fields.

The following substitution does not require approval: **MATH 230. Elementary Statistics** or **PSYC 214. Statistics and Research Methods I** may replace **MATH 156. Calculus II**.
