Criminology, as an interdisciplinary major, builds on the strengths of the social sciences and humanities, and ties together the Department's areas of interest, including qualitative and quantitative methods of research (mixed methods approaches), economics, gender, class, critical race theory, social movements, crime, terrorism, social service, anthropology, and geography. The major focuses on contemporary empirical issues like policing, mass incarceration, cybercrime, drugs, and comparative criminal justice.

The program objectives are threefold:

- Criminal Etiology: Students in the degree program will learn criminological theoretical foundations to objectively determine root causes of criminal and socially deviant behavior in terms of extraneous factors, including behavioral, social, sociological, cultural, and economic.
- Penology: Students will develop evidence-based, effective, and humane/socially just means for analyzing deviant behavior and understanding culturally appropriate responses to crime and criminality.
- 3. Sociology of Law: Students will examine how laws are made and enforced.

The program covers a range of exciting, important, and timely criminology topics that will challenge preconceptions and broaden perspectives through a wide variety of courses, including electives such as Modern American Gangs, Contemporary Policing, Criminal Justice Ethics, and Mass Incarceration and Collateral Consequences.

As a criminology major, you will:

- Analyze the U.S. class structure and how class status affects one's life
- · Learn the logic and skills of social scientific research
- · Gain first-hand experience collecting and analyzing data
- Survey major sociological theories, tracing contemporary approaches to classical sociologists
- Complete a capstone project based on original research

There are a vast number of career trajectories and opportunities for students graduating with degrees in criminology. The program prepares individuals aiming to pursue careers in policy evaluations, program evaluation, justice focused non-profits, law enforcement, political think-tanks, law school, and federal agencies, to name a few. Many criminology students choose to pursue graduate work, including law school.

Criminology majors interested in Geographic Information System (GIS), e.g. crime mapping--create, manage, analyze, and map crime data--can choose to pair the major with either a *concentration or minor in Geography* and requires consultation with the

geography departmental advisor and must be approved by the Department Chair Dr. Roksana Badruddoja (https://manhattan.edu/campus-directory/roksana.badruddoja/). Criminology majors interested in *concentrating in Social Services* requires departmental advising and must be approved by the Department Chair Dr. Roksana Badruddoja (https://manhattan.edu/campus-directory/roksana.badruddoja/). A *double major in Criminology and Sociology* requires departmental advising and must be approved by the Department Chair Dr. Roksana Badruddoja (https://manhattan.edu/campus-directory/roksana.badruddoja/).

The Department strongly recommends that all students in the criminology major complete a faculty-supervised internship for elective credit in a local social service agency: Sociology 475. Internship (3 credits). Assistance with locating a suitable placement is available with the Director of Criminology Dr. M (https://manhattan.edu/campus-directory/roksana.badruddoja/)adeleine Novich (https://manhattan.edu/campus-directory/mnovich01/) or at the Center for Career Development (https://inside.manhattan.edu/student-life/career-pathways/career-development/).
